Subject: The Kids We Lose Password protected limited time viewing rights

Good morning-

Thank you all for your considering and or confirming your desire to participate in the community screening of The Kids We Lose.

Here is the link for the documentary: <https://vimeo.com/321586194>
The password is: [REDACTED]

This password is only guaranteed to work for 24 hours. It can be difficult to watch. The main purpose of the pre-screening is to provide an opportunity to consider the challenges within our community and come together prior to the screening to offer a coordinated next step plan, that might include

1. Information about what we as a community are doing to keep kids in school and educate them.
2. Resources available now
3. How we can develop a vision and mission that aligns resources, concentrates efforts, and concentrated the positive impact for children and communities

Please feel free to call me or email me with questions or thoughts.
Thank you again for your commitment to children and service to our community-
